The Probable Outcome of the
Deadman Trial—Defend-
ant's Story.

The case against Thos. Deadmon,
colored, charged with assaulting Mrs.
Lee Stanley two weeks ago, was still
on trial in the circuit court at 3
o'clock, and will probably not be fin-
ished today. At press time there
were about eight or ten witnesses yet
to hear.

Deadmon, the defendant, was
placed on the stand this morning
and told a straight story. He
claimed he was prizing tobacco at
the Wash Herron place in
Ballard county on the day
in question, and had been
since the first Sunday in May. He
was subjected to a rigid cross exami-
nation, but could not be shaken.
There were several other witnesses
who fully corroborated him, and
swore positively that he was in Bal-
lard county prizing tobacco on the
day the assault was committed. The
commonwealth's witnesses could give
nothing but their opinion, and sev-
eral said they thought Deadmon was
the man, including Mrs. Stanley,
who was shot.

In the face of the more conclusive
evidence, however, it looks like the
only result can be Deadmon's ac-
quittal.

WANTED IN MAYFIELD.

Youthful Thief Caught Here. Will
Be Taken Back to Mayfield.

Oscar McKinney is the name of a
youth from Mayfield arrested this
forenoon by Officer Gray on a charge
of larceny, on information from
Graves county.

McKinney claims to be eight years
old, but it is said by others that he
is 12. He rode a "blind baggage" in
from Mayfield yesterday after-
noon and shortly after arriving here
sold a watch to a man for a dollar.
The watch proved to have been
stolen there, and it is further
claimed that he broke into a show
case there and stole a fine knife.
Marshal McNutt is expected this
afternoon from Mayfield to escort the
young gentleman back home.

AGUINALDO SENDS HIS LAST WARNING.

(Scripps-McRae Service.)

NEW YORK, June 11.—A dispatch to the Journal from Hong Kong says that today has been set by Aguinaldo, the insurgent leader, for the final attack upon Manila. Admiral Dewey is reported to have insisted that the observance of the rules of civilized warfare be adhered to by the insurgents, but that he expected to take no part in the attack. General Aguinaldo has notified Augusti, the commander of the Spanish forces at Manila, that unless he withdraws the reward for Aguinaldo's head, that he would have Augusti's head. Beyond this Aguinaldo agreed that everything would be properly done.

FRENCH AID FOR THE SPANIARDS.

Startling Reports That Material Aid to the Spaniards Is on Its
Way Under the French Flag—Blanco Urges General
Linares to Wait For Reinforcements.

Scripps-McRae Service.

KEY WEST, June 11.—A Cuban scout just ar-
rived from Havana reports that General Blan-
co has advised General Linares, the command-
er of the Spanish land troops at Santiago, that
a hundred French expert artillerymen, with
field guns and a large supply of ammunition,
will reach Cuba in a week on a vessel flying the
French flag. Blanco also urged General Linares
to hold out for these reinforcements. The scout
reports that the situation in Havana is getting
worse, and that the condition of the poor peo-
ple is rapidly approaching the starvation point.
Sampson is arming insurgents at Santiago.

SANTIAGO BOMBARDMENT YESTERDAY.

Report That Santiago Was Attacked Yesterday by Sampson, and
That the Spaniards Were Defeated—Spanish Reports Say
the Americans Failed in Making a Landing.

Scripps-McRae Service.

NEW YORK, June 11.—A special dispatch to
the New York Journal says that the Spaniards
were overwhelmingly defeated yesterday at
Santiago in the bombardment by Sampson.

A rumor was circulated in London last night
that Santiago and Cervera surrendered yester-
day after a three hours' hot battle.

A Madrid dispatch says that the bombard-
ment of Santiago lasted three hours, but the
Americans failed to make a landing.

A Tribune dispatch says the Spaniards are
landing Cervera's guns to make a desperate re-
sistance to land forces.

MONDAY IS THE DAY FOR SAILING.

Nothing Preventing General Shafter and His 27,000 Troops Will
Sail For Santiago Monday, Convoys by a Fleet of
Sixteen War Ships.

Scripps-McRae Service.

WASHINGTON, June 11.—Unless circum-
stances make a change advisable, it is now
thought the transports off Tampa loaded with
troops for Santiago will put to sea on Monday.
The delay has been caused by the fear that
some Spanish vessels were reported to be
cruising across the course that the transports
would take in going to Santiago. A fleet of
warships strong enough to defeat any Spanish
fleet that could be gathered together will con-
voy the transports. The fleet will be headed by
the battleship Indiana. It is said that sixteen
warships will compose the fleet.

TALKING ABOUT PEACE.

Scripps-McRae Service.

Berlin, June 11.—The Kreuz Zer-
tung this morning reiterates the
statement that several of the Euro-
pean powers have interchanged opin-
ions regarding the advisability of
mediation to secure peace between
the United States and Spain.

Scripps-McRae Service.

Washington, June 11.—The offi-
cials of the state department here say
that they know absolutely nothing
about the proposed peace overtures
that it is said are being discussed by
the European powers. It is regarded
here that the rumors of mediation are
groundless and are being set afloat
by Spain.

WILL HOLD GUANTANAMO.

Scripps-McRae Service.

Kingston Jamaica, June 11.—The
Scripps-McRae dispatch boat Ely, re-
ports that the Marblehead has re-
turned to Guantanamo Bay and is
now holding the harbor awaiting the
arrival of mariners to take possession
of the town of Caimanera.

Only a small force will be needed
as the city is a natural fortification.

On Tuesday the Marblehead chased
a small Spanish gunboat, but it es-
caped.

The insurgents report that pro-
visions are becoming very scarce and
that there is great suffering among
the poor in Santiago.

BASE OF OPERATIONS SELECTED.

Admiral Sampson Chooses Guantanamo Harbor—The Stars and
Stripes Float Over the Spanish Fort at Caimanera—
600 Marines Landed Yesterday.

Scripps-McRae Service.

Mole St. Nicholas, June 11.—News by dispatch boat Simpson, which
has just arrived from the Guantanamo harbor, says the first landing by the
American troops was effected at Gaimanera at two o'clock Friday after-
noon. The stars and stripes were planted over the ruins of the Spanish
blockhouse. Six hundred marines were landed from the Panther under
guard of the warships Marblehead, Yankee, Yosemite, Oregon, Porter,
Dolphin, Vixen, Panther and a collier. Half a dozen fishermen's houses
were burned as a precaution against yellow fever. The landing was made
without shelling the place. The purpose of Admiral Sampson is to estab-
lish a naval base there.

Guantanamo bay is considered a good base for both naval and military
operations. Though thirty miles from Santiago, the hills are not precipi-
tous and an almost level road leads to Santiago, over which siege guns and
pack trains can easily be moved.

Wilkesbarre, Pa., June 11.—An
explosion of gas in the South Wilkes-
barre shaft of the Lehigh and Wilkes-
barre Coal company occurred this
morning just after the men began
work. It is said that twenty or
more of the miners were killed,
though the extent of the disaster is
unknown.

MONTEREY SAILS TODAY.

Scripps-McRae Service.

San Diego, Cal., June 11.—The
Monterey positively sails this after-
noon for Manila, via Honolulu. It
is believed here that the Monterey
will seize the Caroline Islands as she
proceeds to the Philippines. She
put in here to replace a deck load of
coal which she lost in a storm when
one day out of San Francisco. The
Monterey and her collier the Brutus
are 450 miles out of their course for
Honolulu.

GEN. MERRITT TALKS OUT.

Believes in Holding the Philip-
pines and Grabbing Every-
thing in Sight.

San Francisco, June 11.—At a
banquet given by Mayor Phelan to
Maj.-Gen. Merritt, at the Pacific
Union club, Thursday night, a num-

ber of prominent citizens were pres-
ent. In responding to a toast in his
honor, Gen. Merritt said that the
success of the American troops in the
Philippines could not be doubted.
The territory acquired by the United
States by right of conquest should
not be relinquished. What the navy
has won the army will hold. He
closed by saying:

"I believe in the new national
policy of the United States, which
looks to the acquisition of additional
territory, represented in outlying
islands that are requisite for the de-
velopment of national strength and
growth."

His sentiments were heartily ap-
plauded.

MUST MOVE ON.

Scripps-McRae Service.

London, June 11.—A Buenos
Aires dispatch says that the govern-
ment of Paraguay has ordered the
Spanish torpedo boat Temoraria
which is now at Asuncion either to
dis-arm or to leave port. The captain
says he will leave as soon as repairs
are completed.

THE PHILIPPINE EXPEDITION.

Scripps-McRae Service.

San Francisco, June 11.—Eight
hundred and fifty recruits of the regu-
lar infantry arrived here this morn-
ing from Atlanta to join the Philip-
pine expedition. The Monadnock is
coaling at Mare Island. Her consort,
Nero, has been docked for some light

repairs. Both will be ready to sail
about Wednesday.

The first part of the second Ma-
nila expedition, which altogether will
take over 12,000 men, is expected to
sail this afternoon.

It is still believed here that the
Monitor Monterey will seize the Car-
oline Islands before going to Manila.

A BEAUTIFUL TRIBUTE.

Commodore Schley has paid a
beautiful tribute to the valor of Lieut-
enant Hobson and the gallant crew
of the collier Merrimac.

He says: "History does not
record an act of finer heroism than
that of the gallant men who are
prisoners over there. I watched the
Merrimac as she made her way to the
entrance of the harbor and my heart
sank as I saw the perfect bell of fire
that fell upon those devoted men.
I did not think it was possible one of
them could have gone through it
alive. They went into the jaws of
death. It was Balaklava over again
without the means of defense which
the light brigade had. Hobson led a
forlorn hope without power to cut
his way out. But fortune once more
favored the brave, and I hope he will
have the recognition and promotion
he deserves. His name will live as

The eyes of all patriotic citizens
are now riveted upon Admirals
Dewey and Sampson and Lieut.
Hobson, the three gallant defenders
of the "Star Spangled Banner," who
in our righteous war for "humanity
and liberty," have recently by con-
spicuous ability, daring exploits and
grand achievements, made the Ameri-
can navy the wonder and the admi-
ration of the civilized world; and in
consequence, rejoicing hearts of all
true Americans are today beating
with pardonable pride. Commodore

THE SUN has been the recipient of many compliments on account of its enterprise in securing the Scripps-McLure news service. The pleasure with which the people of this city note the steady progress of the SUN is most gratifying to the SUN's management.

It can be said that it is not the intention of the SUN to stop here in its advancement, but other improvements will soon be made which will add to the efficiency of the SUN and increase its value to the reading public.

With a spirit of legitimate pride the publishers of the SUN ask a comparison of its columns with those of other papers in this city. The SUN is willing to base its claims for patronage upon its merits alone.

The unrivaled telegraphic service yesterday is but an illustration of the service that the SUN will give its readers from day to day which will be a complete review of the leading events of the day's doings.

What is the use talking about the "growth of the spirit of conquest?" There was ever a time since the settlement of Jamestown and the landing of the pilgrims when the spirit of conquest, or the acquisition of domain, was not over us? What we did not capture directly by force of arms we did indirectly. When we did not wish to fight we purchased. There never has been an hour when the spirit of conquest and territorial extension was not our moving force. Whether we were killing Indians, fighting Mexicans, annexing Texas, buying from Napoleon or Spain, it has always been "more land and a greater country."

A LATE dispatch says Spain's capitulation is only a matter of a few days, and that Uncle Sam's terms are the independence of Cuba, the cession of the Philippines and Porto Rico to the United States and the payment of \$500,000,000 indemnity by Spain. "Unquestionable peace is in sight." But by what kind of a "sight?"

McKINLEY PROSPERITY.

The manufacturers of the United States are making, in the fiscal year which closes with this month, their greatest record in competing for the markets of the world. Not only will the exports of manufactured articles for the fiscal year exceed those of any previous year, but for the first time in the history of the country they will exceed the imports of manufactures.

In the ten months of the fiscal year whose detailed record the bureau of statistics has just completed, the exports of manufactures exceed by over \$40,000,000 the value of the manufactures imported, and it is probable that for the full year's record this excess will reach \$50,000,000.

In no preceding year in the history of the country have the exports of manufactures equalled in value the imports of manufactured articles. In the fiscal year of 1897 the imports of manufactured articles exceeded the value of exports of manufactures by the sum of \$27,362,217; in 1896, by \$104,759,734, and in 1895 by \$121,413,783.

Nearly every branch of the great manufacturing industries has shared in this growth of sales to other parts of the world. The exports of agricultural implements, for instance, which in 1888 were about \$2,600,000 in value, will in the year 1898 be in round numbers \$6,000,000. Locomotive engines, whose exportation in 1888 was less than \$500,000 in value, will in 1898 reach probably \$4,000,000, orders for more than 150 engines having been placed with the great manufacturing establishments during the last two months for use in China, Japan, Russia, Egypt, Australia and South America. Bar iron, of which 1,500,000 pounds were sent abroad in 1888, this year 10,000,000 will be exported. Builders' hardware, the export of which in 1888 was valued at \$1,442,635, was in the last fiscal year of \$4,152,836 in value.

The exports of cut nails, which in 1888 amounted to 11,963,664 pounds, will in 1898 amount to more than 35,000,000 pounds, an increase

of 200 per cent. Wire nails have increased over 1,000 per cent, the exports of wire, wrought and horseshoe nails in 1888 being 1,547,078 pounds, while those of 1898 will reach nearly if not quite 20,000,000 pounds. Exports of iron plates and sheets, which in 1888 were less than 1,000,000 pounds, will in the year which ends with this month amount to nearly 8,000,000 pounds, while those of steel plates and sheets, which were but 119,419 pounds in 1888, will exceed 20,000,000 pounds in 1898.

The total value of the exports of manufactures of iron and steel which in 1888 amounted to \$17,763,034 will in 1898 exceed \$65,000,000. The exports of leather and manufactures thereof, which in 1888 amounted to less than \$10,000,000, will in 1898 exceed \$20,000,000 in value. Exports of illuminating oils, which in 1888 amounted to 456,000,000 gallons, will in 1898 exceed 8,000,000 gallons, while lubricating oils, which in 1888 were less than 25,000,000 gallons will in 1898 reach 55,000,000 gallons. The exportations of paraffin and paraffin wax, which in 1888 were 36,000,000 pounds, will in 1898 reach 140,000,000 pounds. Soap increases from 19,000,000 pounds in 1888 to over 27,000,000 pounds in 1898; glass and glassware from \$881,618 in 1888 to \$1,208,187 in 1898; manufactures of rubber from \$866,867 in 1888, to \$1,807,125 in 1898.

Manufactures of cotton show an increase of 50 per cent, in the value of their exports during the last ten years; exports of chemicals have also increased 50 per cent, in value during the same time. Manufactures of brass have increased from \$308,124 in 1888 to over \$1,400,000 in 1898, while manufactures of copper, including ingots and bars, which in 1888 were \$3,812,798, were last year \$31,621,125, and seem likely to exceed that sum in 1898.

In numerous other manufactured articles there have been similar gains, nearly the entire list having shared in a greater or less degree in the growth of the export trade during the last decade. The total exportations of manufactures in 1888 amounted to \$130,300,087 and in 1898 seems likely to reach nearly or quite \$290,000,000.

HEAVY COST OF LOBBY WORK.

Not a little sensation has been stirred up over the report of the cost of lobby work for the Methodist book concern, of Nashville, on a claim for damages growing out of the destruction of property by the soldiers during the war.

W. K. Curtis telegraphs from Washington to the Chicago Record: It is now admitted that Messrs. Barbee and Smith the managers of the book concern, reported to the general conference at Baltimore the other day that the sum of \$100,800, which is 35 per cent of the amount appropriated by congress, was actually paid to E. B. Stahlman, the lobbyist of the Louisville & Nashville railroad, for securing the passage of the bill. It is also admitted that Barbee and Smith, representing the book concern, made a contract with Stahlman several years ago, agreeing to give him 35 per cent of any morning that might be appropriated for his professional services as a lobbyist, and the claim was increased by that amount in order to compel the government instead of the book concern, to pay the fee.

The report referred to was suppressed and will not appear in the published proceedings of the conference in order to prevent a scandal particularly because Barbee and Smith have repeatedly declared in public that no fees were paid to lobbyists, and that no agreement was ever made to pay them. Several members of the conference criticised and others condemned the transaction. An attempt was made to mollify them by instructing that a portion of the money be set aside as a fund for the relief of supernumerary ministers. But this was not satisfactory. It did not quiet the consciences of several of the brethren, and they still insist that all of the money excess of the actual losses suffered by the book concern should be returned to the United States treasury. They declare that it would be an insult to offer any clergyman money that was obtained by fraud from congress, and that Barbee and Smith should be disciplined, because they have shown themselves unworthy to be entrusted with the responsibilities of the book concern, as they gave a solemn assurance to senators from Tennessee, Florida and other southern states that no portion of the money appropriated should be used to pay lobbying, while they had a contract with Col. Stahlman to pay him 35 per cent of the proceeds in their hands.

Circuit court begins Monday at Mayfield, and among other cases will be that against Bob Blanks, the alleged rapist.

Some of the people in Mayfield do not like the idea of the governor sending troops there, but no law abiding citizen can consistently object because the past fully justifies the governor.

It may be, however, that when the troops go down to Mayfield, the seat of war may be shifted for a few days. There is an element in Mayfield that has always declared that Blanks should be lynched, and this is the one likely to cause trouble.

Bob Blanks and the Soldier Boys Will Soon Be There.

Circuit court begins Monday at Mayfield, and among other cases will be that against Bob Blanks, the alleged rapist.

Some of the people in Mayfield do not like the idea of the governor sending troops there, but no law abiding citizen can consistently object because the past fully justifies the governor.

It may be, however, that when the troops go down to Mayfield, the seat of war may be shifted for a few days. There is an element in Mayfield that has always declared that Blanks should be lynched, and this is the one likely to cause trouble.

SOCIETY NOTES.

The handsome home of Mrs. Jas. Clements, on West Broadway, was the scene of a very beautiful affair when this charming hostess entertained with a progressive euchre party Friday morning. Tables were arranged for the guests in parlor, library and hall, which were radiant with the fragrant perfume of June roses. After several exciting rounds of this proverbially fascinating game, the very daintily designed score cards declared Mrs. Chas. Mocquot winner of the club prize, Mrs. Lloyd W. Boswell winner of the visitor's prize and to Miss Irma Hecht the booby was presented. The guests on this enjoyable occasion were: Madames Long, of Louisville, I. D. Wilcox, King Brooks, A. R. Meyers, L. W. Boswell, Chas. Mocquot, H. E. Thompson; Misses Mayne Glass, of Madison, Ind., Mae and Fannie Higgins, of St. Louis, Speer, of Chicago, Mary Sowell, Mae Paxton, Irma Hecht, Annie May Yeiser, Mary Mocquot, Janet Campbell, Emma McKnight, Mary Burnett, and Elizabeth Segenfelder.

The annual commencement of the Paducah Public High School will take place at Morton's opera house Monday evening, June 13, at 8 o'clock. The graduates are: Myrtle Greer, Edna Wright, May Harris, Rosa Kolb, Jessie Mikesell, Maud Hymarsh, Elizabeth Jarvis, Maud Vance, Myrtle Decker, Jettie Davis, Myrtle Smith, Minnie Terrell, Mary Karnes, Edna Bailey, Mary Gagan, Louise Kirchoff, John W. Wellford, Stuart Dick, Simont, Edwin Wolfe, Jesse Weil, Willie Winston, Charles Acker, Harry Gilbert and Silas Mitchell.

OUR FAIR GIRL GRADUATES.

A writer in a Tennessee town in describing a type of fair girls at a recent commencement says: Fairer is she than the skies, sweeter than all the flowers above her; radiant she stands, eager for life before her. Lessons are learned, the school doors are swinging to; the great world waits outside. The sky is bright above her; down the path she looks and sees only flowers and the smiling faces of friends, hears the music of the birds and catches the echo from the dance. Her feet are impatient for the race. Run it she will, and run it swiftly. May she run it well. Life is a poem. Her days and hours will be so passed as to make the rhyme. Life is moving music. She turns from the sweet melody of school days to lift her voice in the symphony of womanhood.

VISITORS' ENTERTAINMENT.

In honor of visiting young ladies in the city the young men in society last evening gave a dancing party at Rumons park. It being the first open air fete of the season, a large crowd was present. Among them were: Mesdames J. P. Campbell, Will McGarry, Sowell, George Langstaff, Charles Mocquot, I. D. Wilcox, Long, of Louisville, Hicks, Misses Speer of Chicago; Mae and Annie Higgins, of St. Louis; Ann Reed, Virginia Reed, Janet Campbell, Mary K. Sowell, Geraldine Sanders, Allie Sanders, Laura Sanders, Corrie Grundy, Pauline Vaughan, Mary Burnett, Emma McKnight, Marie Burnett, Elizabeth Burnett, Marie Noble, Jessie Nash, Drusie Hand, Mae Paxton, Caroline Sowell, Floss Owen, Lela Goodwin, Francis Clark, Lizzie Segenfelder, Messrs. Thixton, of Owensboro; Wheeler Campbell, George Langstaff, Dr. Hicks, Maurice Nash, Roy Culley, Wallace Weil, W. B. McPherson, Henry Bradley, Irvin Cobb, Rob Noble, Clark, Tom Morton, Hughes McKnight, Edwin Wilson, Harris Rankin, Dick Rudy, Tom Hall, Albert Foster, John Sinnott, John Shewin, Tom Sanders, Ale Well, James Brooks, Charles Humphrey, Ed Paxton, Harry Tandy, Tom Corbett, and Mulberry.

Mrs. J. P. Campbell took a party of married ladies to Cairo on a pleasure trip this morning.

Unless signs go for nothing there will surely be a wedding in society before the leaves fall again. The young lady is "divinely tall and divinely fair," and can be seen most every day trudging along the popular thoroughfare with huge bundles under her arm on her way to the modiste, who will spend many hours designing pretty things for the trousseau.

Another rumor is that two sisters residing on Jefferson street will soon have a double wedding. One of the grooms-to-be is from the East, and the other is a Broadway business man.

A Broadway young lady residing in the West End might come under the same list, as we have heard that a Henderson young man makes frequent visits to our city strictly on business.

Mrs. Henry E. Thompson has as her guests three charming young ladies from Jackson, Tenn.

Mrs. Long, of Louisville, arrived in the city Wednesday on a visit to Mrs. I. D. Wilcox.

Mr. Walter S. Johnson left Tuesday evening for Jackson.

Miss Mayne Glass leaves for her home in Madison, Ind., next week, after a month's visit to Mrs. James Clements.

Miss Louise LaRue, of Bowling Green, will accompany the Paducah party home from Nashville, and will be the guest of Mrs. I. D. Wilcox for several weeks.

Miss Alma Reis, of Evansville, will be the guest of Mrs. H. E. Thompson for a few hours today.

Mrs. Henry Burnett and family leave Tuesday for Henderson to visit relatives.

WRITTEN AT RANDOM.

When girls get away from home, they sometimes become naughty. Not naughty in a bad sense, but just mischievous. For instance when a crowd of Chicago girls came through Paducah last year, and hired a dray for a sightseeing conveyance, riding all over the city, the average Paducah girl held up her hands in holy horror, and was ready to give up the ghost. The other day, however, a crowd of Paducah girls went up to Smithland, and started the stand inhabitants by a dray ride over the city, something like the one given here by the Chicago girls. It is not known what the people in the tranquil little hamlet thought of their capers, but the Smithland papers will be watched, and if anything is said about it, the Paducah papers will please copy.

This reminds one of a little incident that occurred down on Broadway one day last week. A crowd of young lady steamboat excursionists from Nashville went up town after refreshments, and after taking one of the soda-water dispensaries by storm, they proceeded to enjoy themselves in true Tennessee style. One of the girls finally asked the clerk what the young man in town had a nice horse and buggy. A popular young banker was mentioned, and the young lady asked permission to use the telephone a moment. She rang up the bank, after ascertaining which one it was from the clerk, and a spirited colloquy followed. The young lady said that a party of them wanted to enjoy a buggy ride on the beautiful streets, and suggested with unmistakable plainness that he was just the fellow for the thing. He told them to meet him on the corner, but when they reached the place, a dozen or more strong, he was not to be seen. His courage had forsaken him, and he was hiding in the rear room, or in the vault, it has never been ascertained which. The girls were not to be thus fooled, however, and promptly took their stand in the door, and called for him and "guyed" him for his bashfulness until he came out and confronted them. They remained in the door talking for some little time and seemed to enjoy the novel unconventionality of it all, but did not take the buggy ride. It is more than probable that they would themselves have backed out if the young banker had insisted on the ride, as they were out principally to have a little adventure, and were doubtless satisfied with their experience.

Col. Tom Corbett is one of the best story tellers in the city, and newspaper men are always glad when he will come around and spin, whether he tells the truth or not, for his fiction is more entertaining, if anything, than his truth, and may be more abundant. But it is certainly a pleasure to find him in a voluble mood, laying all jokes aside.

"I saved this section of the country from being almost depopulated during the late war," he said the other day. "It was during the times when so many men were needed, I had been commonwealth's attorney, but the 'yanks' came up here and 'persuaded' me not to run for reelection. I allowed myself to be 'persuaded,' and for sometime was out of a job. There was a heavy draft one day, and it would have almost divested this part of the state of all left of its able-bodied men. I asked permission to go to the headquarters of each army, or division, and ascertain the residence of all the men who had enlisted, and of all those who had given no place of residence. I knew there were many negroes who had run away from Tennessee and other states and come here to enlist, and it was these I was after. Well, I got the desired permission, and went to work. I found eight thousand of them, and went to Washington and had them credited to Kentucky, they having enlisted from no state, and this made out their quota, and the draft on this section was released."

Prof. H. V. McChesney, of Smithland, Livingston county, has for several years been collecting all sorts of funny or quaint answers of teachers and pupils to questions propounded on examinations. He now has a large collection, and materially increased it last week at the examination of applicants for the appointment to West Point, he being one of the examiners. While here he casually mentioned one answer he received from one of the teachers in Livingston county, to a question

asking them to "define or explain the process of digestion."
She was a colored damsel, and it was in the days of oral examinations instead of the written examinations such as are almost universally held now.
"Well," she said, "first de food am et. Den de organs ob de bowels fetches holt ob it, an' foh long it am 'bout digested."

Yesterday morning when Mayor Lang came down to open up the drug store, he found a yokel sitting out in front on an empty box. He watched the mayor unlock the door, and then ambled in after him.

"Well, what can I do for you?" inquired the mayor, as he turned to greet the customer.

"You can't do anything for me," was the short reply, with emphasis on the "you." "I'm only waiting for the mayor."

"I have the honor of being that official," was the rejoinder.

"You are?"

"Yes, sir, strange as it may seem."

"I'll declare! Say, I jes want ter git a pass fer myself and family ter go out here about twenty mile in the country. Mum busted and got ter git thar some way."

"There don't any trains run out there."

"Aw, we ain't any too particular. We can stand ter go in a waggon, I reckon."

The mayor declined to furnish the impetuous native with a wagon, but gave him a quarter and advised him to take up a collection for the balance. In about an hour he met him again.

"Well, what luck?" he asked, imbued with the idea that his generosity was appreciated.

"Not much," concluded the country man, with a look of resentment.

"They telt me this is just what they are payin' yer for, and nothin' else."

The last seen of the ungrateful man he was still taking up his collection, with uncertain success.

The ineffable intelligence of some of the sewer pipe inspectors now drawing pay from the city is one of the world's wonders, and should be recorded in the history of the nation as one of the most remarkable things ever known.

On the end of every piece of pipe can be seen corrugations, or small grooves made in the pipe. They are for the purpose of more strongly cementing the pipe together, and the joints are screwed together and cemented with a piece of oakum inserted to add strength.

The other day one of the inspectors went to the boss and said: "They's some pretty good pipe up there, but it's too long."

The idea of the pipe being too long struck the boss as being rather unusual, and he asked the inspector how he knew.

"Why," he replied, "it's got marks on the end where it will have to be cut off."

These are the kind of men the city is paying, and the kind of men whose judgment the contractors have to submit to.

POLICE COURT.

The Colored Bicycle Thieves Will Make a Defense—The Case Continued.

Other Notes of the Court of General Interest to the Public.

The case against Manuel Hodges and Early Long, colored, arrested in Mayfield on a charge of stealing two bicycles here, both of which were found in their possession, was this morning, at the request of the law firm of Mason Bros., of Mayfield, continued until Thursday. The lawyers were employed by relatives of the defendants and cannot get here until Thursday. What defense will be made is hard even to imagine, as both confessed after being arrested.

Mrs. G. A. Bright and Mrs. Ray were charged with letting their cows run at large, and the cows being in the pound, there was nothing to do but to charge them with the costs. One of the ladies, who is a widow, had to pay \$7 livery charge before she could get it. Judge Sanders explained to them that he did not make the law, only enforced it, and that the only thing for people to do under the circumstances is to keep up their cows, for if impounded, it will cost them \$1 a day, in addition to other costs, not including any fine.

The court also called attention again to the dog law, and said that Monday morning License Inspector Jarvis will begin swearing out warrants against everybody who has not secured a license, and against the owner of every dog that has no tag on it. If the owner can show a license when arraigned before the court, he will be dismissed. Otherwise a fine will be assessed, as no excuse whatever will be accepted for a failure to procure a license. Hence, everybody with dogs should get a license and tag.

C. C. Thornberry was another cow victim. He confessed to turning out his cow, and was released after all costs, amounting to several dollars, were paid.

The case against Mr. Julian Greer, butcher, charged with running a butcher's wagon without a license, was called today in the police court and continued until Monday. Mr. Greer took the case to the circuit court, was defeated there, and will now take it to the court of appeal.

George and Jane Sansbury were charged with having assaulted a woman. The evidence showed that she was the aggressor, and the warrants were dismissed.

Henry Johnson was charged with running a dray without a license, but claimed that he had previously given it to a daughter. The case was continued until Monday.

Sam West, colored, for vagrancy, was sentenced to thirty days on the streets.

SCHOOLS CLOSED.
Our public schools closed yesterday. The teachers who have labored so earnestly and long will now get a much needed rest. It was a splendid year, and a success in every respect. Many pupils all over the city, who made good use of their time, are happy today over the knowledge that they will be promoted next year. The commencement which will wind up the year and at the same time begin a new era for our people in the history of education in the city, will be held at Morton's opera house Tuesday evening, June 14.

Willie Mitchell left for his home in Tennessee yesterday.

MUSKETS WITH HISTORY.

Something Interesting of Some Formerly Used Here.

Col. E. W. Crumbaugh, in getting up the old state property, found one old musket that has an interesting history. It does not properly belong to the state, but was formerly used in the state guards.

During the late war several old muskets that had been captured from the confederates, were taken to Washington and there stored. They proved to have been used by the body guard of Queen Victoria, of England, and had the crown and all stamped on them. They were bought down south somewhere by the union forces.

Years ago fifty of them were sent here to the Jackson guards, and used for some time. They disappeared for some time, and were afterwards found in an attic, in the building where Klein Bros.' cigar store now is. They were then used until the state guards were mustered out, many of them being carried by the boys until the last. How many were turned over to the state is unknown, but there are few to be found here now. Engineer Joe Flach, of the Bettie Owen, has one. Another was found at Mr. Forshee's dye house.

MANY ACCIDENTS.

There Have Been Many Patients at the Railroad Hospital.

This has been a banner week at the Illinois Central hospital. The surgeons have brought in during the week, all told, about 22 patients to have a surgical operation of some kind performed. There were all sorts of operations from the amputation of both limbs to the mere binding of a lacerated finger.

Last night there was two brought in.

One was Frank Bush, a brakeman, who had a leg broken at Big Clifty yesterday.

Another was W. T. Houser, of the city, who had a long piece of steel penetrate his arm at the shops.

This morning Richard Henderson, of Lucy, Tenn., was brought in with one ear cut half off, and various other injuries. He went to sleep on a track with a rail for a pillow, and when the train came along neglected to get up. It struck him, and it is miraculous that there was enough left of him to bury.

ASSAULT AT BARDWELL.

Atrocious Attempt to Harm a Young Girl There Yesterday.

The rape case detailed in the Register as occurring at Cairo, and given with the Register's usual accuracy and enterprise, occurred at Bardwell, Ky., and Detective Wickliffe, whom another paper had going to the county to get another man suspected of assaulting Mrs. Lee Stanley, really went to Bardwell in response to a telegram.

The facts in the case seem to be that Fannie Harrison, a girl twelve years old, was driving a cow to the pasture in the suburbs of Bardwell yesterday morning at 7 o'clock, she was accosted by a negro and choked and beaten unmercifully. Her cries brought neighbors and at sight of whom the brute fled. The probable culprit was arrested an hour later and taken before the girl. In her excitement she would not positively identify him. He was released. Two hours later the girl declared him to be the one who assaulted her.

Argument

Is not necessary to convince a thinking person that money is thrown away when invested in a typewriter that has not passed its experimental period.

Years of hard, thoughtful effort and continual experimenting are necessary before reaching approximate perfection in a writing machine.

Is it wisdom, then, for one to contribute to this cost of experiment?

Reputation Established

Years of experience, constantly increasing sales the world over—the natural result of typewriter excellence—is the unquestioned record of

THE SMITH PREMIER TYPEWRITER.

When you buy a Smith Premier you obtain a writing machine that is in advance of all others in points of improvement and durability.

Do not pay for the costly experiments of others. The Smith Premier passed its experimental period years ago. It now stands the leader among writing machines. Descriptive catalogue free.

Bicycle Blow Hards

Can only talk about building a correct and up-to-date bicycle. But the Excelsior Bicycle Works was the first and are the only people in Paducah to-day that ever manufactured a complete, high-grade bicycle in Paducah, the only people that ever put a white enamel on a bicycle frame, others have tried but they failed. It is the verdict of the best known riders in Paducah that the Excelsior is the prettiest, speediest and most durable bicycle that wheels.

When good riders play for bicycles they ride the best. The following speedy, fearless and daring riders, will pedal the Excelsior to victory this season: Harry Holston, the undisputed junior champion of Paducah. Eddie Toof, the promising star of 1898. Owen Tully, the fast pacemaker. Rich Halsey, Walter Watkins, Billy Orr and others.

Any old bicycle repair shop can build a bicycle, but why can't they sell them? It's easy to answer if you see them. See the pink rims glisten in the sunlight.

HURRAH FOR THE CHAMPION HEATER!

How dear to my heart is our snug little bathroom. Our refuge from sickness, discomfort or dust; Its marbles, its nickel, its neat-painted flooring.

So shiny and free from all foulness and rust, But the best thing there is within that enclosure.

The object that pleases us most of them all, That soonest can warm us when chilled by exposure,

Is the good Champion heater that stands by the wall; The Champion gas heater, the nickel-plate heater,

The nice, handy heater, so shiny and tall.

When the fires are all out and the children awake me, With coughs and with croup, at once, with all speed,

To light up the heater I straightway betake me, And find it is always a good friend indeed.

For laundry, for sickroom—most all pain relieving—For milk that is malted, beef extract or tea,

For hot water bags—why, 'tis past all believing How handy a good Champion heater can be;

The Champion gas heater, the nickel-plate heater—No living without one henceforward for me.
